

Optimizing Government Relocation

mLINQS developed moveLINQ to be the first comprehensive, fully functional application designed expressly to manage relocation. Long recognized as the most complex facet of E-Gov Travel, every challenge relocation presents is addressed by moveLINQ.

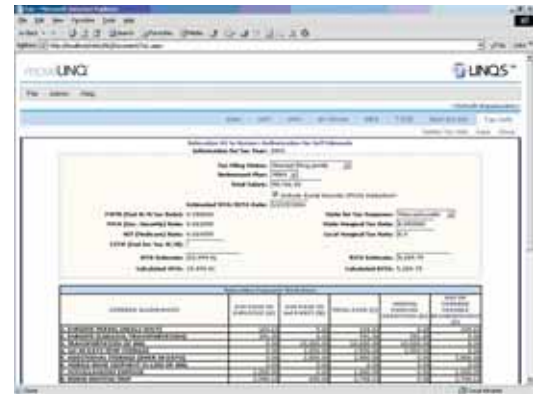

Total Relocation Management

moveLINQ automates FTR Chapter 302, DSSR and 6FAM relocation policy, and adheres to the FEA, E-Gov Travel, and Section 508 standards. When it comes to a cost-effective Relocation Management Reporting System, moveLINQ sets the benchmark.

- House Hunting
- En route Travel
- Taxes
- Household Goods Shipment
- Real Estate
- Temporary Quarters

moveLINQ is built on Microsoft.Net technology

moveLINQ addresses every aspect of relocation

moveLINQ stands alone as the application government agencies can depend upon to remove the most frustrating and recurring financial management and compliance problems associated with relocation.

Technology

moveLINQ is built on proven Microsoft® .NET technology. The benefits range from trouble-free installation and unmatched scalability to fast implementation and user assimilation in a fully scalable, secure Internet or Intranet environment. A hosted option is also available.

Support

moveLINQ is a turnkey solution. This attention to detail includes complete installation, training and consultation backed by professionals experienced in government E-Gov Travel initiatives to ensure successful implementation.

The right move begins with moveLINQ, the optimal Relocation Management Reporting System for all federal agencies.

mLINQS is a Service-Disabled Veteran-Owned Small Business
