

Optimizing Defense Relocation moveLINQ is the first comprehensive Relocation Management Reporting System developed expressly for DoD. mLINQS has designed it to address every complex Permanent Change of Station (PCS) challenge.

Total Relocation Management moveLINQ adheres to Section 508 standards and guidance outlined by the DoD Net-Centric Data Strategy. The system automates:

- JFTR Chapter 5
- JTR Chapter 5
- JFMIP SR-99-9, 21-36

When it comes to cost-effective relocation management, moveLINQ puts PCS in motion.

- House Hunting Trip (For civilian employees)
- WTA and RITA (For civilian employees)
- Temporary Lodging/Quarters
- Dislocation/Miscellaneous Expense Allowance
- Standard Data Output for interface with external systems
- Real Estate (For civilian employees)
- En Route Travel
- Household Goods Shipment and Storage
- Comprehensive Relocation Reports

moveLINQ is built on Microsoft .Net technology

moveLINQ addresses every relocation challenge

moveLINQ is the system DoD can depend upon to seamlessly manage PCS for both uniformed and civilian personnel.

Technology moveLINQ is built on proven Microsoft® .NET technology. The benefits range from trouble-free installation and unmatched scalability to fast implementation and user assimilation in a fully scalable, secure Internet or Intranet environment. A hosted option is also available.

Support moveLINQ is a turnkey solution. Installation, training and consultation are backed by the mLINQS team to ensure successful implementation.

Mission Ready moveLINQ optimizes Relocation Management Reporting. mLINQS is a Veteran owned Small Business linking objectives with results.
